

Leaf Canister

The **Astral Leaf Canister**, with a massive 8 litre capacity is the easiest way to contain leaves and debris. This is a free standing canister has an 80mm inlet and 100mm outlet, both ports reducable to 50mm. With a sturdy lock ring, massive basket and clear inspection lid, this debris catchment method is designed for simplicity and ease of installation. There is no need for this canister to be built into the pool wall. The Astral Leaf Canister in conjunction with the X-Port Main Drain is also the ideal way to capture leaves from catch tanks. Adaptor is also available to connect the leaf canister directly onto the Aqua-Quip Delta Series Pump.
